Forge World is part of Games Workshop based in Nottingham, England. Forge World started making a range of highly detailed resin models from the Worlds of Warhammer and Warhammer 40,000 in 1999 and this catalogue is now packed with wonderful models, both large and small.

Shipping and Handling questions answered

When it comes to shipping, you have a choice between First Class mail and Express Delivery. First Class costs 12% of the order total within the UK, 15% for the rest of the world. Upgrading to Express Delivery costs an additional £12 within the UK and £15 for the rest of the world but is a lot faster. If your order adds up to £250 or more of models or books etc, you will automatically receive completely free shipping and upgraded to express with our compliments!

Please note that as the Forge World offices and warehouse are closed on Sundays, orders placed on Saturday evening and Sunday will be processed from the next working day.

The delivery date of orders is dependant on stock availability. Choosing the Express Delivery option will ensure the earliest possible delivery date. If your order is time sensitive or you wish to check the availability of a particular item we recommend you call our customer service team.

As a rule, please allow 28 days from date of ordering for delivery. If you think your order should have been delivered already, please contact your local post office and check it is not being held there as our packages are often too big for your letterbox!
I have a question about my order. What should I do?

If you have any questions, the easiest and fastest way of getting them answered is to telephone one of our friendly and knowledgeable staff. If this is just not possible then you can email us but it may not be possible for us to reply as quickly as we would like so we do recommend calling us.

If calling about an order, please have either the delivery note from the order or your receipt from the online store so we can take the relevant details we need and get to work helping you.

Can I buy Forge World models anywhere else?

Yes. Forge World products can also be purchased from any of the events that we attend. For an up to date list of events we will be attending over the next few months please visit the Events section of the Forge World website.

We usually use these shows as an opportunity to release brand new models and show off work in progress. They are also your chance to ask any questions you have face to face with the Forge World and Warhammer Forge staff.

As Forge World often cannot take our entire range with us to every show, to guarantee getting the models you want at these events we recommend sending a reservation order to us. All we need is your name, which show or event you want to collect your order at and of course, your list of models. We will then pack up your order, take it with us and it will be there waiting for you at the show.

Terms and Conditions

To save room for more new models, we have decided not to print Forge World’s Terms and Conditions in our catalogue. Of course, these are available upon request by calling us on 0115 900 4995 or online at http://www.forgeworld.co.uk/Home/Help.html These terms and conditions apply to every contact between you and Games Workshop Limited (trading as Forge World) so we recommend that you read them carefully before purchasing anything.

Forge World reserve the right to change any prices, availability and content of any products at any time and without notice.

Where have some of the other models gone?

Our range of models has become so large that we can no longer fit them all in our catalogue. Many of these models, such as the one shown above, can still be found on our website www.forgeworld.co.uk
EMPIRE MARIENBURG CLASS LANDSHIP
(Product Code: 99590202005)
This towering behemoth is named after, commissioned by, and paid for by the vast coffers of the wealthy burghers of the independent city-state of Marienburg, notorious for having bought its secession from the Empire. Mighty, that is, if the somewhat experimental boiler doesn’t catch fire, explode, or cause the wheels to fall off!

This massive, superbly detailed, multi-part resin kit, designed by Tim Adcock, is supplied with six resin crew figures sculpted by Steve Whitehead: three Deck Gunners, a Captain, an Engineer-Steersman and a Lookout. Complete resin kit.
